## Settled When You Would Rather Go Back

Brian Montague | October 8, 2023

# Message Notes

God leading you to something new does not mean getting there will be easy.

Complaining is toxic and infectious.

Leaders, remember: There are people who would kill to have your bad days.  
Those who have leaders, remember: Be gracious to your leaders

Don't settle for "back then", be settled in "here and now"

### SCRIPTURE

Numbers 11; Luke 6:43-45

# Discussion Guide

## ENGAGE

1. Share a memory from your past that you remember fondly. Also share about something that has changed in your life from the past that you are grateful for the change.
2. Read Numbers 11:4-17. What did the Israelites remember about living in Egypt? What did they forget about? How did this affect Moses? How does God respond?
3. Why do you think complaining is so contagious? What Godly character traits does complaining develop? Diminish?
4. Leaders, how can you guard yourself from getting caught up in complaints?
5. Those who have leaders, how can you honor God and your leaders with the complaints you have?
